“A huge residential renovation in St Johns Wood”

C & D Restoration Limited was called upon to carry out full structural works to three corners of the residential estate. This required supporting the corners as brickwork was dismantled. The internal steel support then needed extensive treatment to rid it of rust to ensure it did not return. All three corners were then rebuilt to match the existing one.

Extensive repair to the brickwork and pointing continued to the defective exterior including complete new chimney stacks, flaunching and pots to the roof.

On completion the whole premises was thoroughly cleaned using the Super Heated DOFF system.
