The hospital was founded in 1721 by Thomas Guy, a publisher of unlicensed Bibles who had made a fortune in the South Sea Bubble. It was originally established as a hospital to treat "incurables" discharged from St Thomas' Hospital. Guy had been a Governor and benefactor of St Thomas' and his fellow Governors supported his intention by granting the south-side of St Thomas' Street for a peppercorn for 999 years. Guy is interred in the crypt of the Chapel of his foundation.

C & D Restoration Ltd was commissioned to carry out the following works to the Conybeare House building which is now used for the hospital's administration -

- Rebuilding of all chimney stacks with new pots, including pointing and flaunching
- Replacement of Portland stone coping with non-ferrous fixings to parapets and gables

Our expert tradesman had to work in close proximity with roofers and the main contractor in order to adhere to the strict works program.
